

## FOUR EMPLOYEES ASK LEAVE TO GO TO FLORIDA MEET

Four employees of the city and county who have been assigned places on the shooting team from the National Guard which will leave soon for the matches at Jacksonville, Florida, today sent a request to Capt. L. W. Redington to ask leave of absence for them at the meeting of the board of supervisors tonight. Capt. Redington has consented to take up the matter and probably will send a letter to the supervisors at once.

The four employees are Capt. H. Von Gleason, J. Kekahuna, Sgt. John Stone and Lieut. George Baker. Von Gleason is deputy clerk in the office of County Clerk Kalaokalani, Kekahuna is the well known driver of Mayor Lane's automobile, Stone has charge of the city and county waterworks, and Baker serves as clerk in the waterworks department. The four men expect to be absent about six weeks.

Firing through a drizzling rain, with high winds interfering at the longer distances, the National Guard's picked rifle team made several good scores at shorter ranges yesterday on the Fort Shafter range.

Three "possibles" were achieved: 1st Lieut. John Searle, 50 out of 50 at 200 yards rapid fire; 2nd Lieut. Cunningham and Sgt. Thomas Evans scoring 50 out of 50 at 300 yards rapid fire.

With a score of 275, Sgt. George Deha of M Company, the Hilo troop, made a good record considering that it was his first shoot on the Shafter range. He is believed to have a good chance to become one of the team's 12 members.

September 22 the team will leave for Jacksonville, Florida, to participate in the national rifle shooting competitions.

## BRIGHT'S DISEASE

We proclaim this new FACT IN PHYSICS—Influence the renal tract with an agent that opposes renal granulation and degeneration and urinalysis will, in many cases, within 30 days begin to show diminishing albuminuria in Bright's disease.

The prescription counter having been without an agent to diminish albuminuria (see Tyson page 155) the importance of an Anti-Albuminuric is paramount and manifest.

That albumin can be reduced and that many of those succumbing to Bright's disease can have lives prolonged to other terminations has been established by urinalyses, and confirmed by disappearing symptoms in several thousand cases many involving dropsy and some, tapping.

The presence of albumin being a PHYSICAL FACT and its disappearance a FACT IN PHYSICS, there is no uncertainty as to the results that have been and are being obtained.

The Anti-Albuminuric (Fulton's Renal Compound) can be had at the Honolulu Drug Co. Ask for pamphlet. Current bulletin of recoveries and rationale mailed on application. John

The Ohio Oil Co. declared the regular quarterly dividend of \$1.25 a share, and an extra dividend of 75 cents a share.

## IN THREE WEEKS HONOLULU WILL HEAR DECISION

Federal Site Question to Be  
Closed Soon—New Custom  
House Next Improvement

Probably within three weeks word will reach Honolulu telling which of the three available sites has been selected for the proposed new federal building.

This is according to Byron R. Newton, assistant secretary of the treasury, who will return to the mainland on the steamer Manoa tomorrow after inspecting the sites. When seen today, Mr. Newton declined to say whether or not he has made a definite selection. Immediately upon his arrival in San Francisco he will proceed to Washington, D. C., he said, and promised that within a very short time, probably three weeks, the result of his inspection here will be made known.

"The price which the government feels that it should pay for a site for a federal building will have a great deal to do with the final selection," explained Mr. Newton. "While the government is willing to pay a reasonable price for a site, it does not intend to pay anything for esthetic sympathy. There are three sites available in Honolulu. One of these is the Mahukala site, and that belongs to the government."

The appropriation covering the purchasing of a site and the erection of a federal building amounts to \$1,325,000. According to Mr. Newton, it is the desire of the government to use as much of this money as possible in the erection of the federal building.

Mr. Newton said today that his selection of a site will be accepted by the treasury department. From a statement made by Mr. Newton today, it may be inferred that he is in favor of a central location for the proposed federal building. While the office of the collector of customs will be in the new building, he said, it is the intention of the government to maintain the present custom house for appraisers' stores and for other purposes. As the land and buildings belong to the government, he added, it is likely that new structures will be erected there, as the present ones are hardly as up-to-date as they should be.

Mr. Newton said that he has a few ideas of his own regarding the plans of the new federal building, and he will go into this matter as soon as he returns to Washington. The Star-Bulletin has already published the news that the local U. S. marshal, the federal judges, the district attorney and the federal clerk recently forwarded to Washington plans for their offices in the proposed new building. Several sets of plans already have been prepared in Washington, and these may be altered to some extent by Mr. Newton.

Mr. Newton's return to Washington is hastened from the fact that he has received a cablegram to John Secretary of the Treasury McAdoo on a tour of the principal cities of the country where the work of erecting government buildings is in progress.

"I am leaving Hawaii as one of its most loyal boosters," Mr. Newton said today. "This is my first trip to the islands, and all that I have seen has increased my admiration for their beauty and my interest in their welfare."

"It is an ordinary thing for a government official to receive normal, ordinary courtesy, but the welcome that any stranger gets here is something more than mere civility or courtesy. There is a human substance in it that makes a man feel that he is not only welcome for a day, but welcome as long as he wants to stay here."

## CHAUFFEURS TO HAVE NEW LICENSE BADGES

License Inspector George Holt received the new license badges for registered chauffeurs this afternoon. The badges are numbered in the center and the word "Licensed Chauffeur" and "Honolulu" are stamped around the edge. Hereafter all drivers of rent cars will have to wear one of these badges or give up driving cars in the rent service.

"These badges will be a big help to all in settling arguments over fares," Mr. Holt said this afternoon. "Should some passenger disagree with the driver over the fare, he can see the driver's number at all times, and make complaint if necessary. I am positive that this innovation will be a big help to all concerned."

Drivers of rent cars are asked to secure their badges at the inspector's office.

## HAWAII'S NEED IS FOR TEACHERS WHO HAVE BEEN TRAINED AT HOME

Difference Between Islands and  
Mainland is Great, Declares  
Supt. Henry W. Kinney

"Hawaii-trained teachers; that is, persons who are trained for the teaching profession right here in Honolulu, is what the department of public instruction both needs and wants," said Supt. Henry W. Kinney today, and, for the reasons outlined by the superintendent, the department is going to do considerable boosting toward securing an increased enrollment at the Territorial Normal School this year.

There is somewhat of a difference between teaching school in Hawaii and on the mainland, Mr. Kinney declares, and for this reason he believes that persons who are trained in the local normal school finish unusually well qualified for the local work.

"For these reasons, I would like to see the capacity of the normal school doubled this year," the superintendent added.

When the public schools closed for the summer vacation last year, 144 men and women were enrolled in the normal school, being trained for the teaching profession. The school opened for the new year today, and the department is looking forward to a substantial gain over the attendance of last year.

## MRS. FIELD MUST RAISE \$1000 BOND OR STAY IN JAIL ON LIQUOR CHARGE

Mrs. Alvira C. Field, who, with three others, was arrested at Wahiawa's "blood town" late Saturday afternoon by the U. S. marshal, charged with selling liquor without a license on a government reservation, were arraigned before Federal Judge Charles F. Clemons this morning. The others were Cpl. W. H. Alford, Mrs. M. M. Bair and Ralph Gonsalves.

Mrs. Bair was released on her own recognizance. Corporal Alford's bail was fixed at \$500. He probably will be released this afternoon. Gonsalves is being held on bond in the sum of \$500.

The special federal grand jury met again this morning but no report was forthcoming. Another meeting will be held tomorrow morning.

## PRESERVATIVES USED ON FRESH MEATS IN HONOLULU? WILL SEE

Complaints of serious digestive disorders, caused, it is reported, by the eating of fresh meats which have been treated with preservatives, have reached the office of A. W. Hansen, federal

Vocational work and domestic science will be featured extensively at the normal this year. Harlan Roberts, who was at the Lahaina (Main) school for about 10 years, will be in charge of the carpenter work. He takes the place of E. Allen Creevey, who has been detailed to Kaula for vocational work.

The school kitchen, which serves appetizing lunches for five cents each, will be reopened this year.

The teaching staff will be as follows:

Edgar Wood, principal.  
Normal—Miss Ida M. Ziegler, Mrs. Lilla G. Marshall, Miss Ida G. MacDonald, Miss Ruth C. Shaw, Miss Ada S. Varney, Miss Letitia M. Morgan, Miss Marion D. Dean, Jane M. Ostrom, Harlan Roberts, Miss Anne Van Schaick, Miss May T. Kluegel, William Meinecke, Mrs. Mary A. Schmidt, Miss Hedwig S. Ostrom.

Normal practice—Miss Margaret M. Shaw, Miss Frances M. Ostrom, Miss Lorna H. Jarrett, Miss Jessie L. Deems, Miss Gladys Rickard, Miss Charlotte E. Betts, Miss Helen G. Pratt, Miss Maude Drake.

Fifty persons from private schools in the territory already have enrolled for the coming year. This is in addition to the permanent enrollment of 144. It is expected that about 50 or 60 local persons will enroll.

## MATSONIA A TREASURE SHIP

—loaded with a wealth of good eatables consigned to Henry May & Co. There's fresh California fruits and vegetables; there's Puritan creamery butter, and there's boiled ham, smoked beef, knackwurst, blood tongue, Polish sausage, bratwurst, Ashland ham, smoked tongue, liver loaf and an assortment of cheese in toll, tin and glass for the delicatessen counter. Phone your order early to 1-2-7-1.—Adv.

at food commission, and are being investigated.

Two complaints of this nature have been received during the last few days, says Mr. Hansen.

"These are the first complaints of this kind that have come to the office since I have been commissioner," declared Mr. Hansen. "I do not believe this office has ever before been called upon to investigate the use of preservatives on fresh meat."

## FORWARD WHEELS OF AUTO HANGING OVER PALI CLIFF

Machine With Five Passengers  
Crashes Through Fence and  
Stops on Edge of Precipice

Five people were close to death Saturday night when the Buick car of Hung Yew of Waikeane hurtled around the hairpin bend near the top of the Pali road and plunged through the fence which hedges the highway before it came to a halt with the front wheels hanging over a precipitous hundred feet high.

Supervisor Daniel Logan and a party of his fellow lawmakers came upon a crowd of men Sunday morning at the scene of the accident working hard to salvage the machine. After much pulling and hauling the car was finally dragged up on the roadbed and put in shape for running again.

Evidently the accident was caused by some trouble with the steering gear, as the steering apparatus was the only part of the machine which was badly damaged when it was found the next morning. There is little danger of a car which is in good running order working off the grade at this point of the road, for the roadbed is built almost as hollow as a motor-cycle course for the purpose of keeping speeding machines from flying off at a tangent.

What happened was probably that the car came down the grade at a fast clip and that in twisting the gears to swing the machine around the curve they were disabled or stuck, and the car kept on a straight course for the cliff. The driver probably had just time to throw off his power when the car hit the fence. An entire section of the fence was torn out but the check was sufficient to counterbalance the impetus of the car, and it came to a standstill just in time. Had it rolled six feet further nothing could have saved the five people in the machine from death.

Announcements were made from many pulpits in Honolulu yesterday of a grand mass meeting to be held next Sunday evening in Central Union church at 7:30 p. m.

"All of this excitement which has been aroused by the search of the charter convention for a home and funds to live upon," says Mayor Lane, "even if it does nothing else, will surely lead the people of Honolulu to a realization that we need a city hall large enough to take care of just such bodies as this when they are called together."
